

Mary

What did you do yesterday?

- Tried to edit homepage but failed due to impediments.

What will you be doing today?

- Add links to drawer nav bar
- Edit home page
- Add styling

Are there any impediments in your way?

- There is an error loading the app through expo and I'm still not sure what the error is and how to solve it.

Andy

What did you do yesterday?

- Creating database layout and the UI layout
- Tried making houseid but failed.

What will you be doing today?

- Inserting user information, like name, phone etc.
- Working on creating houseid through firebase.

Are there any impediments in your way?

- Not too familiar with firebase functions.

Ben

What did you do yesterday?

- Styled Log in/Sign up page
- Redirect to Home page after Log in/ Sign up

What will you be doing today?

- Make navigator "AppNavigator," which contains "LogInNavigator," and "HomeNavigator"?
- Get rid of Back option after user logs in/ sign up
- Make drawer nav bar

Are there any impediments in your way?

- Don't know how to automatically log someone in
- Don't know how to check for sign up/log in error in js (eliminate expo errors)

Keith

What did you do yesterday?

- Reworked UI layout/logic path for login process

What will you be doing today?

- Doing a few unit tests on signup testing to make sure the sign up is redirecting to login page to the home page
- Create a drawer nav bar with no links

Are there any impediments in your way?

- No
